Deutsche Telekom ICSS -

- ICSS - Serves the wholesale requirements of the Deutsche Telekom Group entities

- Contracts with more than 700 carriers and service providers worldwide

- Delivery of Unified Communications as a "hosted white label" product for Tier2/3 carriers leveraging CommuniGate UC Centrex.

- One of the biggest voice traders worldwide: More than 21 billion voice minutes (end of 2008). Voice quality and business grade services are important for customer satisfaction and retention. HD Voice is an exciting proposition that will unlock the values of VoIP

- Experienced international carrier with capabilities on a global basis, enabling Tier 2/3 players to "gain access" with our Hosted Offerings such as those by CommuniGate Systems.

Global IP Solutions

- Recognized leader in world class voice and video processing technology for IP networks

- Voice processing technology enabling CommuniGate's Pronto!

- True HD Voice Experience – offering HD Voice since 1999

- Enables developers to offer the highest quality regardless of network conditions

- GIPS software is deployed in nearly a billion end-points

Thank You!
